MAIN BUILDING
SCHOOL FOR THE DEAF AND THE BLIND, CEDAR SPRING, S. C.

BOARD OF COMMISSOINERS.

Col. T. J. Moore, Chairman.

Hon. J. E. Swearingen, Ex-OFFICIO.

Dr. J. F. Cleveland.

Dr. W. B. Patton.

Hon. C. N. Sapp.

LETTER OF TRANSMITTAL.

South Carolina School for the Deaf and the Blind.

Cedar Spring, S. C., Dec. 17, 1915.

HON. J. E. SWEARINGEN, STATE SUPERINTENDENT OF EDUCATION, COLUMBIA.
S. C.

Dear Sir: To you, and through your office to the General Assembly, we wish to transmit the sixty-seventh annual report of the South Carolina School for the Deaf and the Blind. The report, which has the full endorsement of the Board, shows that the School needs for the ensuing year the following:

For Maintenance.	\$37,000 00
For Scholarships	600 00
For Insurance on Primary Building.. ..	293 33
For Repairs and Improvements	2,000 00
For Repairs—Main Building	20,000 00
For Linotype Machine.....	1,500 00
For Shoe Shop Equipment.....	500 00

The only item in the above statement that we feel should be brought in an especial manner to your attention is the amount of \$20,000.00 for repairing, remodeling and refurnishing the Old or Main Building of the School. To complete this work approximately \$45,000.00 will be needed, but since the work will have to be done in installments \$20,000.00 is all that can be expended advantageously during the coming fiscal year. This is a most opportune time to do this work, as there are now fewer children in this Main Building, owing to the erection and occupancy of the Primary Building last year. As the Superintendent clearly sets forth, and as we personally know, this Main Building is old, dilapidated and unsuited to the needs of a modern school for the deaf and the blind. The other items are current and necessary from year to year.

There has been erected at this School and is now occupied a Primary Building that is attracting attention throughout the United States. It is meeting fully the expectations of the School authorities and makes possible more

efficient work throughout the entire School. Not only is it doing this but it is bringing more pleasure and more comfort to the little deaf and blind children of our State.

We wish here to express the gratitude of those interested in this work, and of the many deaf and blind of this State, for the removal of this School from the Penal and Charitable work of the State. This very act on the part of the people of the State has thrown new life and new energy into the School.

We wish to remind you that all money appropriated for the support of this great work will be spent under the direction of a man whose joy is in his work, and whose existence is the welfare of his School.

Yours very truly,

T. J. MOORE,

Chairman Board of Commissioners.

SUPERINTENDENT'S REPORT.

TO THE BOARD OF COMMISSIONERS OF THE SOUTH CAROLINA SCHOOL FOR THE DEAF AND THE BLIND.

Gentlemen: After many and varied efforts to get our School eliminated from the section of "Penal and Charitable" Institutions of the State, and to place it where it properly belongs in the Educational Section, we found it necessary in order to do so to secure a change in the Constitution. The necessary amendments were submitted to the voters of the State in the election of 1914. The amendments were carried by handsome majorities and were duly ratified by the Legislature on February 8, 1915.

Prior to the election in 1914 the following circular letter was sent to the newspapers of the State with request to give it publicity. Since this letter sets forth the reasons for making the change, we think it well to incorporate it in this report in order that it may be on record:

TO THE VOTERS OF THE STATE OF SOUTH CAROLINA:

At the last meeting of the General Assembly, at our suggestion, two amendments to our State Constitution were proposed for the betterment of this school, to be voted upon by you at the coming general election. If these two proposed amendments are approved by the people of this State voting "Yes" upon both of them the School for the Deaf and the Blind will no longer be classified with the Penal and Charitable but with the Educational Department of the State. In order to effect this change of classification it is necessary to amend our Constitution in two places. First, it is necessary to so amend as to take the school from the Penal and Charitable Section. A second amendment is necessary to place the school under the Educational Section.

At the coming general election in November you will be asked to cast your ballot either for or against these two proposed amendments. Knowing that the people of this State will uniformly vote "Yes" on these two amendments provided they are informed as to their importance to this school, I deem it my duty, as the representative of this school, to address this letter to you.

A century ago the deaf and the blind children of these United States were allowed to remain a burden to their parents and their friends. About a half

century ago, great advancement had been made when a large majority of the states had established schools under the name of "Asylums" for the deaf and the blind children. So ignorant were the masses of the people in regard to the ability and needs of these children that they could not disassociate the charitable idea from a deaf and a blind child. But there has come a general awakening in all our states. They are recognizing the fact that every deaf and every blind child within the bounds of these United States has a right to hope for an education, and a right to hope that it will not be handed out to him with the label of charity upon it while his more fortunate brothers and sisters get the same thing, and there is not the suspicion of charity with it. The work done at our school is educational in the highest sense, for it includes instruction along literary, musical, industrial, physical and moral lines.

Our graduates are successful men and women, winning their way in the world and gaining the respect of the people around them; they are not objects of charity, and the school that makes them should not be classed with the "penal and charitable" work of our State. For years, for all practical purposes, our classification has been educational, but legally we have carried the stamp of charity upon us. To take away the last vestige of the charity idea from our school I respectfully ask that you vote "Yes" upon both of these proposed amendments. Then I can say to the boys and girls under my care and to the large and respected alumni of our school that South Carolina will no longer stamp Charity upon the education she is giving, and will continue to give so freely to her deaf and her blind children. Feeling sure that the people of this State will gladly avail themselves of the opportunity to vote "Yes" upon both these amendments, I am,

Yours very truly,

N. F. WALKER,
Superintendent.

REPORT OF THE LITERARY DEPARTMENT

The following report of Principal W. L. Walker of the work done in the Literary Departments is respectfully submitted:

The year 1914-1915 in the South Carolina School for the Deaf and the Blind, viewed from a schoolroom standpoint, was good.

There has come to all connected with this school a feeling of gratitude to the people of this State for so amending our State Constitution as to take us out from the "Penal and Charitable" section and classification and place us where we rightfully belong, viz., under the Educational Department. This change of classification has already had a good effect upon our boys and girls; it has made them feel that they are a part of that great army of children working for self-improvement and State uplift.

When we see the schools for the deaf and the blind in other larger and more wealthy states asking for industrial buildings, gymnasiums and school buildings, we begin to reflect that possibly our good work is due to the fact that we have had all these separate buildings for years. The Primary Building, now almost ready for occupancy, will add greatly to our plant; it will enable us to carry out still further our ideas of classification and separation of work.

While we have been crowded for the past few years in our School Building, Industrial Building and Gymnasium, still both teachers and pupils have striven hard not to allow this condition to interfere with results; though we have taught in halls, we have striven not to teach in vain. We are looking forward to the coming year with great pleasure when the older boys and girls can have more room and more private life, and the smaller boys and girls can have more freedom and more home life.

Each year we find defects in our course of study and are changing and improving it from year to year. What we felt was good a few years ago, we see now was very imperfect. Never a week goes by that we do not see some good result that comes, often from an unexpected source, from our having a prescribed course of study and not a time limit course. To quote an alumnus who is bringing honor to our school in the advanced work he is doing and who recently spent several days with us: "The improvements about the grounds,

the erection of the new building, the increase in the number of teachers, and the systematic arrangement of classes mean accomplishments for Cedar Spring in the future."

Combined close application on the part of the pupils with more preparation on the part of the teachers for their daily classroom engagements accounts for the results obtained this year. We were gratified this year with the progress made by several who had been forced to repeat a grade. One led the grade going over a second time. We had been fearful lest a forced repetition of a grade might result in disinterested work. By careful placing of classes and arrangement of work, we have been able to give our advanced classes longer recitation periods for the heavier studies. We have followed this year more persistently than ever before the principle of more reward for the good and less punishment for the careless. All of our departments, literary, music, industrial and physical, continue to work in harmony and co-ordination. Our graduates this year were eight; four from each department. These young men and women have gotten from us the best that we had to give, and we believe they will take good standing among our highly respected alumni.

One other feature that we have stressed during the year was athletics, especially for our girls. We feel that the two hours spent daily by our girls this year in directed play was largely responsible for the better work, better health and better spirit among our girls. On the athletic field the deaf and the blind when they meet and overcome their normal opponents feel in a peculiar way that after all they are not so badly handicapped.

We have tried to keep fads out of our school and yet employ every new idea that seemed to us to be worthy of adoption. We appreciate the fact that life conditions and problems have never changed so rapidly as they are changing today, and we are striving to keep our school so adjusted that our graduates will find themselves prepared for an advanced world.

As Superintendent, you are personally well acquainted with the needs of the school in this department, and we feel sure these needs will be met if possible - therefore we will not repeat them here.

W. L. WALKER,
Principal.

FINANCIAL STATEMENT.

The last Legislature made the following appropriations for this school:

For Maintenance	\$35,000 00
For Repairs and Improving Grounds.....	2,000 00
For Scholarships	600 00
For Completing Primary Building	22,000 00

The current expenses for Maintenance from July 1, 1914, to December 31, 1914, amount to \$16,080.12, and from January 1, 1915, to June 30, 1915, to \$19,426.16, making a total of \$35,506.28 for scholastic year ending June 30, 1915, as shown by the following statement:

RECEIPTS.

From Appropriations for Maintenance	\$35,154 74
From Other Sources.....	351 54
	<hr/>
	\$35,506 28

EXPENDITURES.

Salaries	\$12,326 20
Groceries and provisions	9,841 83
Wages.....	4,968 63
Furniture and Household Goods	1,654 18
Wood and coal.....	1,531 98
Improvements and Repairs.....	1,163 11
Lights, fixtures and power.....	844 51
Feed of Stock	839 61
Laundry	509 41
Books, stationery, etc	326 09
Traveling expenses.	283 36
Clothing.....	222 39
Shops.....	194 88
Express, telegrams and freight.....	168 33
Medical attention and medicines.	134 35
Grounds	89 68
Postage	80 84
Tools, blacksmith, etc.....	79 09
Commercial fertilizers	74 56

Telephone service	74 00
Pumps	44 60
Harness, etc	5 10
Miscellaneous	49 55
	<hr/>
	\$35,506 28

The financial statement for maintenance, as given above, is for scholastic year beginning July 1, 1914, and ending June 30, 1915, and does not, therefore, give financial status for entire fiscal year, but only to June 30, 1915.

To balance Repairs and Improving Grounds,		
1914	\$320 76	
By paid Repairs and Improving Grounds.		\$320 76
To balance Scholarships, 1914	\$440 06	
By paid Scholarships, etc		\$440 06
To balance Repairs, 1914.....	\$7 34	
By paid Repairs.....		\$7 34
To balance Primary Building, 1914.....	\$3,199 98	
To amount from Appropriation	10,000 00	
	<hr/>	
	\$13,199 98	
By paid Contractors, Architect's fees, In-		
surance, etc		\$13,199 98
Received Appropriation for Completing		
Primary Building	\$22,000 00	
By paid Contractors, Architect's Fees, etc.		\$19,388 00
By paid Furnishings, etc.....		2,179 98
By balance on hand.....		432 02
		<hr/>
		\$22,000 00
Received Appropriation for Repairs and		
Improving Grounds.....	\$2,000 00	
By paid Improving Grounds		\$1,074 39
By paid Repairs		232 91
By balance on hand		692 70
		<hr/>
		\$2,000 00

Received Appropriation for Scholarships,

1915	\$600 00	
By paid Scholarships		\$250 00
By paid Library, etc.		85 63
By balance on hand		264 37
		<hr/>
		\$600 00

The appropriation of \$2,000.00 for Repairs and Improving Grounds has enabled us to complete the drives and walks on our grounds, including the necessary grading and drainage required on account of the erection of the Primary Building. During the winter and spring we will begin planting shrubbery, evergreens and flowers, and thus add materially to the attractiveness of our surroundings.

The appropriation for Scholarships is being expended as per Act governing same.

The appropriation of \$22,000.00 enabled us to complete our Primary Building and to have it ready for occupancy at the opening of the school on the first of October. The completion of this building, which enables us to separate the younger children from the older ones, in our opinion, marks the beginning of an era of better and more successful work in the training of the deaf and the blind children of the State.

Two hundred and thirty-one pupils were enrolled during the school year—138 deaf, 92 blind and 1 blind-deaf; 173 white and 58 colored; the attendance being the largest in the history of the school.

One pupil, W. B. Pearson, died January 16, 1915. His blindness was caused by "Cerebral Abscess," and death resulted from "Cerebral Hemorrhage." This case had the careful attention of our Physician and the care of a trained nurse. Except the above mentioned, we had no case of serious illness during the year.

Recently our water supply, which is obtained from a large spring on our grounds, was submitted to the Clemson College chemical department for analysis, and it was pronounced to be "A good, pure water, free from objectionable organic impurities—a good potable water of a type so common in the Piedmont region."

All new pupils were examined at the beginning of the year and where necessary were vaccinated.

In our Literary, Music, Art, Physical Culture and Industrial departments successful work has been done. The progress made in the literary departments has already been clearly set forth by the Principal; our Music department has been strengthened by the addition of three new pianos; more attention has been given to correcting individual physical weaknesses and eccentricities, and the result in this line has been very gratifying. Our pupils, especially of the department for the blind, have been required to spend more time in outdoor sports and recreation. We feel that much improvement has been made in girl's industrial department, especially in the lines of basketry, knitting and rug weaving, and for the boys in chair and mattress making. A supply of chairs for the dining-room of the Primary Building and of first-class all-cotton mattresses for the same have been made by our boys. Much of the work in the construction of the attractive pergola connecting our main building with the school building was done by our wood shop boys.

The following appropriations will be necessary for the proper maintenance of the School for 1916 and for the special purposes enumerated, viz:

For Maintenance	\$37,000 00
For Scholarships	600 00
For Insurance on Primary Building	292 33
For Repairs and Improvements	2,000 00
For Repairs—Main Building	20,000 00
For Linotype Machine	1,500 00
For Shoe Shop Equipment	500 00

The increase in appropriation for Maintenance is made necessary by the increased number of pupils in actual attendance (December, 1915)

We feel sure that the State is making no more useful and helpful scholarship appropriation than the amount given annually for our graduates. The two thousand dollars asked for repairs and improvements will enable us to keep up necessary repairs to our numerous buildings, to keep our grounds in proper shape and to remove and repair some old cottages used for servants' quarters, etc., from our back yard to a more suitable location. The small amount asked for Insurance is to pay premium on the Primary Building to April, 1917, when our other policies expire.

Our Main or Administration Building was erected in 1857-59, and has been in constant use since that date. The roof is leaking; the plastering is falling off; the floors and the stairways are much worn; the steam heating plant, which has been in use for almost thirty-five years, is much worn and liable to fail in the near future; the plumbing, which has been put in by piecemeal, is out of date; in fact, the entire building needs renovating and remodeling. An estimate by a competent architect places the cost of repairing, remodeling and refurnishing the building at approximately \$45,000.00. In order to do the work during vacation months so as not to interfere with our school term, it will be necessary to do the work by installments. We are, therefore, asking for \$20,000.00 of the estimated cost for the present fiscal year.

In order to fit our deaf boys for successful and up-to date printers, we should be able to teach them how to handle and operate linotype machines. We can install such machine for \$1,500.00. We need, also, to install a shoe repairing machine in our shoe shop. This we can do for the sum of \$500.00

Respectfully submitted,

N. F. WALKER,
Superintendent.

December 10, 1915.

TERMS OF ADMISSION

1st. Persons desiring to procure the admission of pupils should apply by letter, or otherwise, to the Superintendent of the School for instructions as to the manner of procedure, and no pupil should be sent to the School until such instructions shall have been fully complied with.

2d. All are required to come provided with an adequate supply of good, comfortable clothing embracing suitable articles for both summer and winter wear, in such quantity as to admit of the necessary changes for washing and repairing, the whole to be neatly packed in a good trunk, with good lock and key.

3d. Each article of clothing should be distinctly marked with the owner's name, in order to prevent confusion or loss, and must be sent in good order and condition, not only upon the first entrance of the pupil, but also at each subsequent return from home after the vacation.

4th. A small amount of money will be required to be deposited with the Superintendent for the benefit of the pupil, should need require.

5th. Pay pupils charged \$150 for session of nine months

6th. Except in cases of sickness, all pupils are expected to remain at the School from the commencement to the close of each session, at which time parents or friends should be prepared to take them home to spend the vacation.

7th. The scholastic session commences on the first Wednesday in October and closes on the last Wednesday in June.

8th. No person of imbecile or unsound mind or confirmed immoral character or incapacitated by physical infirmity for useful instruction, will knowingly be received into the School; and in case any pupil shall, after trial, prove incompetent for useful instruction, or wilfully and persistently disobedient to the regulations of the School, such pupil will thereupon be discharged.

LOCATION

The South Carolina School for the Deaf and the Blind is located at Cedar Spring, Spartanburg County, four miles south of Spartanburg and one mile west of Cedar Spring Station, on the Spartanburg and Columbia Railroad, and occupies a healthful and pleasant site.

THE MANUAL ALPHABET.
